Camo Tungsten Drop Shot Weights.

Tungsten weights are approximately 50% smaller compared to weights made of lead or similar material. The denseness of tungsten also offers greater feedback through the rod tip when searching out Features. Tungsten is also more environmentally friendly than lead.

Once you have tried Tungsten weights you will never look back.

With line clip swivel for fast, easy depth adjustment. Just pull the line into the V-shaped clip at the desired depth. This shape is ideal for rocky bottoms and areas with vegetation as it reduces snagging.
